SOLUTIONS

PRINTER SUPPLY SOLUTIONS

Marking, Coding & Inspection

FAMILY 01

INK & THERMAL TRANSFER

Solutions for variable data, batch numbers, expiry dates, codes and traceability on production lines or in warehouse operations.

01

CIJ

continuous inkjet, 1-5 lines, date, batch, serial, codes

02

Thermal Inkjet

cartridge-based printing, up to 600 dpi, compact touchscreen

03

Handheld Inkjet

battery-powered portable marking for text, dates, batches and codes

04

Handheld Inkjet with Scanner

QR/barcode scanning, wireless transfer, traceability

05

Online Inkjet

controller with printheads, 7 inch touchscreen, continuous operation

06

High-Speed Online Inkjet

rapid production flow, multiple heads, industrial protocols

07

TTO

thermal transfer on films, pouches and labels, ribbon optimization

Applications

food packaging, cosmetics, construction materials, cables, logistics

FAMILY 02

LASER & VISION CAMERA

Permanent marking, visual verification and post-print control for products, parts and packaging that require stable traceability.

01

Portable Laser

mobile marking, red light preview, metal, plastic, stainless steel

02

CO2 Laser

cardboard, wood, plastic and textiles, line integration, no consumables

03

Inline Fiber Laser

permanent marking on metals and technical plastics

04

Stationary Fiber Laser

workstation format, industrial PC, fine and repeatable marking

05

Handheld Laser

manual head with controller, large or hard-to-move parts

06

UV Laser

fine marking on plastic, glass and metals, ideal for sensitive materials

07

Vision Camera

line inspection, 1.5MP/5MP smartcam, post-print validation

Quick Guide

ink for variable data, laser for permanent marking, vision for verification
